
Image directory path

Posted by testdev - 2013/06/12 11:12

Hello,

Would you please tell me how to configure the ari image slideshow module for joomla 2.5?

Questions

- How to specify the image directory path?(examples please)
- How to change the navigation button image?

Thank you for replying. For further question, i will post in the new thread.

Hello,

1. You can find the answer in "Description" section on module setting page:

<http://www.ari-soft.com/images/fbfiles/images/slider-d36d355f9579d083984453195a67d1ac.jpg>

2. CSS and image files for slider themes are located in \modules\mod_ariimageslider\mod_ariimageslider\js\themes\ folder and sub-folders in this folder.

Regards,
ARI Soft
