
My Dropdown Menues are behind the ARI SLIDER

Posted by redwest - 2013/06/14 02:56

Hi, I need help!...my dropdown menus are behind the ARI SLIDER. I have added the following pieces of code to the CSS file but the issue persists. Can you please assist me? My site is: www.ofimarcas.com:

```
.art-BlockContent-body UL.ux-menu LI
```

```
{
margin: 0;
padding: 0;
}
```

```
body .art-sidebar1
```

```
{
z-index: 2;
}
```

```
body .art-content-sidebar2
```

```
{
z-index: 1;
}
```

```
body #topmenu_wrap
```

```
{
overflow: visible;
position: relative;
z-index: 2;
}
```

```
body #content-menu_wrap_bg
```

```
{
position: relative;
z-index: 1;
}
```

```
BODY #ja-mainnavwrap
```

```
{
position: relative;
}
```

```
#shadowbordertop
```

```
{
z-index: 2;
position: relative;
}
```

```
#xtc-holder
```

```
{
z-index: 1;
position: relative;
}
```

```
header
```

```
{
z-index: 2;
position: relative;
}
```

```
#main
```

```
{
z-index: 1;
position: relative;
}
```

```
=====
```

Hello,

This problem with menu styles. Add the following CSS rule to fix the problem:

```
body ul.menu-suckerfish ul
{
  z-index: 1000;
}
```

Regards,
ARI Soft

Page: www.hotel-bergidyll.ch/content

In the layout for smartphones the menu changes into a selectbox, but after the second image, the selectbox is covered by the images. I tried different ways with z-index, but nothing was working.

Thanks for your help
fidelito

This problem with site template styles for the menu. Add the following CSS rules:

```
BODY #header-outer {z-index: 2;}
#banner-outer {position: relative;z-index: 1;}
```

Regards,
ARI Soft
