
No description on images

Posted by artonweb - 2013/06/29 08:28

I have created a folder slideshow which contains my pictures.

The pictures appears fine, but I don't know the configuration of file ariimageslider.ini in order to add description and links to my photos.

Could anyone help me?

Hello,

You can find link to sample INI file and read how to use it in "Description" section on module settings page.

If something doesn't work, provide a link to a page where we can see the slider and link to INI file which you use.

The website is
<http://roumeliotis-sm.gr/el/>

The path to ini file
<http://roumeliotis-sm.gr/images/slideshow/ariimageslider.ini>

Thank you in advance

Your INI file has incorrect format. Use the following content in INI file:

```
1.jpg="test text 1 pic"
2.jpg="test text 2 pic"
3.jpg="test text 3 pic"
4.jpg="test text 4 pic"
```
