
Slideshow not working

Posted by Siris925 - 2013/08/29 04:54

I don't know what I'm doing wrong but the image slideshow on my page is not working. I have two images in my slideshow folder and I can only get it to show one or the other... it does not transition between the two. The photo at the top of the page is supposed to be the slideshow. Here is a link to the website:

Hello,

We can't open the page, it requires credentials.
