Hi,

My drop down menu is obscured by the ARI Slider (after i linked the images)

I noticed this seems to be a common issue but cannot pin down the correct fix after reading the forum topics.

Any help is appreciated

Thanks in advance

Hello,

This problem with site template CSS styles. Add the following CSS rule to fix the problem:

```
BODY #rt-top-surround
{
 z-index: 1000;
}
```
