
Code showing at bottom of image slider

Posted by sapphire - 2014/01/26 23:44

Hi... I am having a problem that there is some code - `{EmptyText}` - showing at the bottom of the image slider on my home page. I have used the slider before and am integrating it with fancy box and can't see what to do to remove this code. I am happy to give you a login to the site if you wouldn't mind taking a look as i have spent almost a whole day now trying to work out where I'm going wrong.

Many thanks for your time.

Hello,

Could you send a link to a page where the problem occurs and a temporary access to your J! backend by email so we can investigate the problem?

Regards,
ARI Soft
