
ARI Image SlideShow in loadposition

Posted by udaysk - 2014/02/25 18:42

hey hallo

i'm new in joomla and first time i'm working with ARI Image Slider too.

actually i'm getting some problem . :(

i load the ART-Image into an article . but i'm getting "JFolder::files: Path is not a folder:" . so can you tell me how to fix this problem .

i'm using joomla 1.5 version .

i'm using syntax : {loadposition module_position}

& load module Extensions syntax : {module }

can you please write the code in here

Hello,

Remove empty lines from "Image path" parameter in module settings.

Regards,

ARI Soft

Hello,

Enter path for folder with images. For example if images are located in /photos/album1 folder, populate "Image path" parameter with photos/album1 value.

Regards,

ARI Soft
