## No image display. Only the dots are displayed

Posted by seranares - 2014/04/18 08:53

---

Hello,

I configured correctly the "image path". The slider show only the navigation bar (dots below the slide) not the images.  
here you can see the result.

What do I made wrong?

Someone can help me?

Hello,

Set writable permissions for /cache/ folder and clean Joomla! cache.

Regards,  
ARI Soft

Thanks, it's working now.

Have a good day
