
ARI Image Slider not autoscrolling

Posted by Falko - 2014/04/28 13:30

Hi guys,

I have installed the ARI Image Slider module today but its no autoscrolling, it stays on the 1st image it loads...
Can someone tell me what im doing wrong ? :)

You can see the slider at <http://www.toncla.nl/>

Thanks in advance,

Falko

Hello,

This problem with your site template. It doesn't contain the following code between `<body>` and `</body>` tags:

Most of Joomla! extensions will not work properly without this code.
