Loading dot on one page Posted by rtouillet - 2014/05/07 14:08
Hello,
I have the ARI Image Slider on all my pages, but on my home page I only have the loading dot
http://www.fullybeachvolley.ch/site/index.php
All other pages are OK :)
I have "Include Jquery" set to "Yes" and "Load jQuery method" set to "Local Copy".
Any idea?
Many thanks for your help.
Renaud
Re:Loading dot on one page  Posted by admin - 2014/05/07 15:35  Hello,  You use very old version of the extension. Upgrade it to the latest version.  Regards, ARI Soft

Hello,
Indeed I was in V1.6.8. I installed the v2.1.11 and now it's ok!
Many thanks for your quick reply.
