
ARI Slider Blocks Dropdown menu on ie11 OK on IE9

Posted by lulu15 - 2014/06/16 23:59

I am using ARI Image Slider and it is blocking my dropdown menu, the menus are displaying but when I hover over them, they disappear. Works fine on IE9 but not on IE11.
Any ideas on how can I fix this.?? Thanks

Hello,

Send a link to a page where the problem occurs.

Regards,
ARI Soft
