
Multiple sliders on same page not working

Posted by murdock89 - 2014/12/08 00:25

Hello,

Thank you in advance for your help. I have to image sliders right next to each other on the same page and neither of them will rotate through automatically however keyboard navigation still works. I have messed with all the settings but am coming up with nothing the domain is str.stratuswd.com

Thank you,

Chris

Hello,

Set "Manual advance" parameter to "No".

Regards,
ARI Soft
