## Play video within the ARI Image Slider

Posted by consultnet - 2014/12/30 08:43

---

Hi,  
is it possible to let a video play within the ARI Image Slider? I have a slideshow with three different pictures online. When a user clicks on one of these pictures a video shall start to play directly in the slider-box. So I don't want any lightbox etc. - the video shall play exactly in the same position where the picture was before.  
How can I do this?  
Thanks,  
Uwe

Hello,

Sorry, but the extension doesn't support this ability.

Regards,  
ARI Soft
