## Slider images go over nav bar

Posted by randylauj - 2015/08/20 15:15

---

So our slider's images are going over our nav bar. The first image is fine but when it cycles to the next pictures, it just goes over them. Our nav bar is a stickynav so I would like to keep that feature and use the slider at the same time. Please help!

Hello,

This is a problem with menu. Contact site template developers so they fix this issue.

Regards,  
ARI Soft
