_____

Hi,
The menu disappears behind the images

I have set the images other z-index (found at forum)
body ul.menu-suckerfish ul
{
z-index: 1000;
}
But as soon as the second image shows, menu goes behind image.

Menu is at "algemeen"
cheers Mike

_____

Sorry,
{$id}
{
  z-index: 1;
}
resolves everything
