
Slider only shows first image

Posted by Claudia - 2018/10/10 09:14

Hi,
after installing Joomla 3.8.13 update this morning all of my sliders only show the first image, no further slides. How can I solve this?

Thanks,
Claudia

Hello,

Is it possible to see the problem anywhere?

Regards,
ARI Soft

Sure, as the website is still in designing process it is offline. If you could make this a private topic I can send you a login for frontend and backend.

Regards,
Claudia
