## Shifts or moves in IE when button clicked.

Posted by MatrixDonna - 2011/02/02 07:27

---

Hi there,

I hope you can help me - I have your component working brilliantly in Firefox, but in IE, when one clicks on one of the rotating images the whole background/component shifts up and shifts back (weird).

The website address is: <http://www.cash4phones.co.za>

Kind Regards

Hello,

This is a problem with site template CSS styles. Add the following CSS rule to "CSS Styles" parameter in module settings or to site template CSS file that fix it:

```
BODY DIV.art-header
{
  overflow: visible;
}
```

Regards,  
ARI Soft

:woohoo:  
Thank You Thank You Thank You!!!

It worked absolutely perfectly.

Really very much appreciate your help - thanks again.
