
Youtube videos don't show up

Posted by Marcel99 - 2011/03/10 11:15

Hi

I'm using ARI Cloud Carousel and it seems to be pretty cool.

However, I have two problems.

aricloudcarousel.ini has been setup as follows:

```
PictA.png="Title A"  
PictB.png="Title B"  
PictC.png="Title C"  
PictD.png="Title D"  
PictE.png="Title E"
```

```
PictA.png="http://www.youtube.com/watch?v=P3Gt7D4GCZZ&height=450&width=800"  
PictB.png="http://www.youtube.com/watch?v=tvZcy1_yyZZ&height=450&width=800"  
PictC.png="http://www.youtube.com/watch?v=XcJ2T0SgiZZ&height=450&width=800"  
PictD.png="http://www.youtube.com/watch?v=ZL1GZmlYxZZ&height=450&width=800"  
PictE.png="http://www.youtube.com/watch?v=-if7qgWbYZZ&height=450&width=800"
```

Problem 1: Picture D is displayed twice, but Picture E is missing. I've checked that all the files are within the picture folder. Any idea what this could cause?

Problem 2: When a user clicks on the thumbnail, sexy lightbox opens and displays the picture instead the video. Any idea? Is the ini correctly setuped?

Many thanks for any input.

Kind regards
Marcel

Hello,

Check that INI file is located in image folder, not in module folder. Is it possible to provide temporary access to your Joomla! backend by email that we can investigate the issues?

Regards,
ARI Soft

Hi

Thanks for your reply. I have loaded the ini file now into the picture path - and it all works.

Many thanks

Kind regards
Marcel
