## How can I add pictures?

Posted by manoj - 2011/03/14 16:56

---

Hi,

I would like to know which folder should I put the images and how to configure it. I mean, I installed the module, and when I enable it in my frontpage or whereelse, doesn't show any pictures.

What I suppose to do?

tnx very much and good luck with your projects

Hello,

Use "Image Path" parameter that specify path to image folder(s):

<http://www.ari-soft.com/images/fbfiles/images/carousel-e735ce6acfdb163af74dd2269780216.jpg>

Regards,
