
Menu stays behind the carousel

Hi Guys!

We are using your brilliant carousel for Joomla 1.6 with a YooTheme template. In most browsers (Firefox, Chrome, older Explorer) the submenu stays behind the carousel.

I changed the z-index for the carousel in mod_aricloudcarousel/js/themes/default/style.css

and in "some other" .css but this had no visible effect.

The problems occur on our test site:

Thanks in advance

Best regards,

Hello,

Add the next CSS rule to site template CSS file:

```
DIV#top
{
  position: relative;
  z-index: 1;
}
```

Thanks a lot for your quick replay.

It works fine now.
