
Display in Safari not correct

Posted by tommygirl - 2011/04/18 22:24

The carousel is working perfectly in IE but in Safari some of the images group together on the right. Here is the link, any idea what could be wrong?

Hello,

Download and upgrade "ARI Cloud Carousel" module. It should help.

Regards,
ARI Soft

Confused! We have only just downloaded and installed the module, this is a new website, not yet launched.
