
Eliminate reflection

Posted by Isiemon - 2011/04/21 21:40

I may be missing something in the instructions, but I can't figure out how to eliminate the reflection

Hello,

Set "Reflection height" parameter to "0".

Regards,
ARI Soft

link to site with Cloud problem is:

<http://www.previewit.info/index.php/mobile-apps>

two problems addressed in separate posts:

1. Can't stop it from shadowing
2. Can't get rid of white space at the top where title and description would print. You suggestion of settin "Y" to 180 does limit the white space, but makes the carousel taller. Can't have the carousel any taller than it is. Need to remove code that reserves that space

I am attaching images of my settings

Was not a zip file (frustrated)

Now sending it as a zip http://www.ari-soft.com/images/fbfiles/files/mypreview_2.zip

Open "Extensions -> Install / Uninstall -> Modules" page on Joomla! backend and check that you use the latest version of the module (v. 1.4.12).

Regards,
ARI Soft

Re:Eleminate reflection

Posted by Isiemon - 2011/04/25 05:46

v 1.1.1

=====

Re:Eleminate reflection

Posted by admin - 2011/04/25 06:49

Upgrade the module to the latest version.

Did the upgrade, it did fix the reflection. Thanks for helping me on that. I still have the problem of eliminating the header, I will go over to that post and we can address it there
