Sort direction issue?

Posted by keatby - 2011/05/06 13:00
_____

Hi again

I've been toggling between 'ascending' and 'descending' on the 'Sort Direction' option in the module backend, and no discernible difference occurs to the flow of the 'ARI Cloud Carousel' when viewing the page.

Any advice?

Thanks in advance.

Kind regards.

Hello,

What is value of "Sort by" parameter? If it is set to "No", "Sort direction" parameter doesn't make sense.

Regards,
ARI Soft

Hi

Thanks for that. I didn't know the 'Sort by' parameter influenced the 'Sort direction' parameter.

Now that I've changed the direction flow, is there a way to select a start image within the module, without editing the original file names?

Thanks.

Kind regards.

Sorry, but the extension doesn't provide ability to specify start image.

Regards,
ARI Soft
