
Question: Not Show Title, Description, and Link?

Posted by Euphoric - 2011/05/24 15:56

Hi admin,

Sorry, I have a problem with ARI Cloud Carousel I have. I have followed all the instructions given, but the logo that I have not show title, description, and also not connected with links that I enter at my own image. Here is a script that I have:

```
/ images / stories / Logos / gede pangrango.png = "big pangrango"
```

```
/ images / stories / Logos / gede pangrango.png = "This is a bread"
```

```
/ images / stories / Logos / gede pangrango.png = "http://www.cianjurku.com"
```

What's wrong with my script?

sorry, I'm not too good at English. I am from Indonesia.

thanks before ...

Hello,

INI file should be located in folder with images and use only image name as key in INI file.

Place aricloudcarousel.ini file with the next content to folder with images:

```
gede pangrango.png="big pangrango"
```

```
gede pangrango.png="This is a bread"
```

gede pangrango.png="www.cianjurku.com"
