Carousel doesn\'t work in Chrome

_____

Hi,

I have created a Carousel but it doesn't work in Chrome (at least on my machine). Though it shows in IE 9. In Chrome it keeps showing the loading activity but never shows up.

Any idea why is that happening?

Regards

AR

Hello,

Provide link to page where we can see the problem. It can be a conflict with a 3rd party extension.

This problem with wrapped tag around the carousel. It is wrapped with:

... carousel goes here ...

It is incorrect, remove tag because Google Chrome (Safari) is sensitive to it. Code should look like:

... carousel goes here ...

_____

Increase "Auto rotate delay" parameter.
