
Ari Cloud Carousel

Posted by scossa - 2011/07/13 10:36

Hello I uploaded my site on your module but I can not put the images, I was wondering if you need another program to use it. (Ari Cloud Carousel) I apologize for writing but I am using a translator because I do not speak English are Italian. thanks

Hello,

If you want to upload images, you can upload it by FTP or use Joomla! media manager or use a file manager extension like eXplorer.

Regards,
ARI Soft

eXtplorer is not our extension and you can find documentation on extension's site or use Joomla! media manager.
Tutorial for media manager can be found [here](#).

Regards,
ARI Soft
