
I can't get my images to show help!

Posted by Diesel - 2011/08/01 17:42

I can't get my images to show it just shows the twirling circle.

www.fotoinc.mobi/pi

Thank you for any help.

Hello,

Sorry, but the carousel works fine on provided page.

Regards,
ARI Soft

I finally did get my images to show but now I need to get text in the popup without having to put in a URL. If you click on one of the pictures in the carousel you can see where I would like to put maybe just text of Measuring outcomes etc. right now it says bad URL

Your INI file is incorrect. Links should be used in `section`, not HTML content.
