
background image not shown

Posted by kostassite - 2011/08/30 13:08

Hi,
i cant make the backgroung image to be shown. I have searched the whole forum(I think) and the google but still cant find an answer. What i have to write in background path? the relative path or the full path? i have tried everything
Thanks in advance

Hello,

Enter relative path. If it doesn't work, provide link to page where we can see the carousel on your site.

The issue was resolved. The background wasn't shown because incorrect value was entered in "CSS Styles" parameter.
