Hello

lovely modul!!! but i would like to show my carousel in a text. (it works properly as a modul in a usual modul-position)  
Using Joomla 1.7

Tried code:

```
{aricloudcarousel moduleId="26"}{/aricloudcarousel}
```

and also

```
{loadposition user20} => plugin "content load modul" is installed and enabled
```

Is there something i missed? can't get it working. :(

link to the site: site

thanks a lot for any help!

Hello,

Read this post please. If it doesn't help, provide temporary access to your J! backend by email so we could investigate the issue.

did everything again as written in the post - with the same effect: it loads the modul in the artichel but there are no pictures  
- as soon as i change the position of the module it works... wrote a mail to you with the login.

thanks a lot!! :kiss:
