[SOLVED] unwanted lines
Posted by kwickcut - 2011/09/11 17:23

_____

i have had a carousel up and running for some time now some lines have appeared and i can seem to find out how this is happening. i have made a new page changed the pics removed the lightbox and played with the setting in the carousel and nothing seems to take the lines out see pic below

_____

Hello,

Provide link to a page where we can see the problem.

Regards,
ARI Soft

_____

This problem with HTML code around the carousel. It seems it was added by a WYSIWYG editor. Open article edit page and remove and tags around the carousel.

_____

thank you very much that worked!!!!!!!!

what does the code do? and why did it just show up? i never had this issue until i added the second carousel on another page

thanks once again

_____

It is unnecessary HTML tags which were added by WYSIWYG editor.
