.ini file not working

Posted by stonedbloke - 2011/09/27 14:28

_____

Hello.

I have two pictures in folder images/banners sil.jpg & silsol.jpg.

I have changed the settings in the .ini file in the location module/mod_aricloudcarousel as follows

sil.jpg="Sheffield Information Link"
silsol.jpg="SIL Solutions"

sil.jpg="This is a bread"
silsol.jpg="A cup of coffee"

sil.jpg="http://www.sheffinfolink.org.uk"
silsol.jpg="http://www.silsolutions.co.uk"

The description file is pointing to aricloudcarousel.ini

When I click on any of the two images it just opens the picture rather than link.

Is there something obvious im doing wrong.

Thanks in advance.

_____

Hello,

INI file should be located in folder with images.

Regards,
ARI Soft
