Hi!

Many thanks for the excellent extension! This is my first post in this forum.

I know less than basic HTML and CSS. But I want to customize the navigation style. I want to show the directional arrows and in the middle of the arrows I want to show circles bullet for each image. This web site has an example of what I want: optikaicsalodas . Can you help me. This is my webpage: Smart Computer

Hello,

It requires custom development.

Your answer was fast. It is good. Can you tell what files do I have to customize and a link to a site that can help me with the code.

Module template file is located by the next path:

/modules/mod_aricloudcarousel/tmpl/default.php

javascript file is located by the following path:

/modules/mod_aricloudcarousel/mod_aricloudcarousel/js/jquery.cloud-carousel.min.js

"ARI Cloud Carousel" is based on Cloud Carousel jQuery plugin.

You can use FireBug addon for FireFox browser to investigate page HTML layout and styles.
