Having a larger front image

Posted by kekka - 2011/10/17 02:27

_____

Hi, is there anyone out there that is able to advise if it is possible to make the center image larger than any of all the others? Currently the front 3 images are of the same size. I need to make the image in the middle bigger like 150%.

Thanks in advance!

_____

Hello,

You can play with "Y radius" and "X radius" parameters.

_____

Hello,

Could you provide a link to a page with a carousel and an image where we can see what do you want to achieve?

Regards,
ARI Soft

_____

Hi,

Unfortunately i'm unable to provide a page as it is hosted internally. The following image link illustrate what i hope to achieve. (Increase the size of the front image in the center)

_____

hi sir i have toggle the parameters.. the size of my picture is 300 by 200..

Additional info:

Style Parameters:

Width: 1024
Height: 600

Carousel parameters

X radius: 600
Y radius: 150

Whats wrong with my configuration?

_____

We can investigate an issue, if you upload your site to an online server and provide a link to a page where we can see a carousel.

Regards,
ARI Soft

_____

Hello,

I'm unable to get it online

Below is the settings i have configured in my Joomla 1.5 Server

http://imageshack.us/photo/my-images/812/image1ru.png/
http://imageshack.us/photo/my-images/815/image2jv.png/
http://imageshack.us/photo/my-images/836/image3jz.png/

Picture pixel: 300 x 200 for 10 images

_____

Try to set "Y radius" to 0 or to 450 for example.

Regards,
ARI Soft

_____

It can be a problem with J! cache and a 3rd party extension. In any case, we can investigate an issue if you provide a link to a page where we can see a carousel.

Regards,
ARI Soft
