
title image in tooltip

Posted by boremy03 - 2011/11/26 18:31

Hello,
Congratulations and thank you for this wonderful module.
Could you explain how having the title of the image that appears in the tooltip when the mouse is placed over the image as your demo
Thank you for your response and good night

=====

Hello,

Place INI file to folder with images. Link to sample INI file and instructions how to use it can be found in "Description" field on module settings page.

Regards,
ARI Soft
