Manipulate the original Cloud Carousel

Posted by kalte - 2011/12/27 20:29

_____

Hi,
thanks for the nice ARI Cloud Carousel, I really like it. I am learning JavaScript and JQuery at the moment and I was wondering if it is possible to manipulate the original Cloud Carousel of R Cecco (http://www.professorcloud.com) and re-integrate the manipulated JavaSript/JQuery back into you module. I have seen that you kind of compressed or packed the jquery.cloud-carousel.min.js (not just minimised). However, it was not possible to replace your jquery.cloud-carousel.min.js by the original Cloud Carousel that can be downloaded at www.professorcloud.com.
Kind regards
Heiko
