
Title, description and navigation position

Posted by kitkiller - 2012/01/22 13:53

Hello,

Firstly thanks for your great job on this module.
Secondly, sorry for my poor english

And finally my problem :laugh:

I would like to positionate title, description and navigation buttons in a different place. I have make it easily, but there is some problems ...

- If title or description is too long, it's not along center
- If i add some image or raise the width of the carousel i need to repositionate everything manually :S

My link : <http://joomla-dev.desu.fr/decoration-exterieure>

You can see the problem on this screen below :

<http://img42.imageshack.us/img42/5128/carouselbug.th.gif>

Uploaded with ImageShack.us

My css, i'm really bad in css language so i have make a lot of improvisation and that's why i need to repositionate everything after i have add one, two, three pictures ... May be it would works better with % values.

```
.ari-cloud-carousel-loading {  
  background: transparent url(images/loading.gif) no-repeat center center;  
}
```

```
.ari-cloud-carousel-loading .ari-cloud-carousel,  
.ari-cloud-carousel-loading .ari-cloud-carousel-caption,  
.ari-cloud-carousel-loading .ari-cloud-carousel-nav {  
  visibility: hidden;  
}
```

```
.ari-cloud-carousel-wrapper {  
  position: relative;  
  margin: -149px;  
}
```

```
.ari-cloud-carousel-wrapper .ari-cloud-carousel-caption {  
  position: absolute;  
  top: 5px;  
  left: 10px;  
  z-index: 99;  
}
```

```
.ari-cloud-carousel-caption .ari-cloud-carousel-title {  
  position: absolute;  
  top: 525px;  
  right: -612px;  
}
```

```
.ari-cloud-carousel-caption .ari-cloud-carousel-alt {  
  position: absolute;  
  top: 545px;  
  right: -632px;  
}
```

```
.ari-cloud-carousel-caption .ari-cloud-carousel-title {
```

```
font-weight: bold;
}

.ari-cloud-carousel-wrapper .ari-cloud-carousel-nav {
position: absolute;
top: 485px;
right: 542px;
}

.ari-cloud-carousel-wrapper .ari-cloud-carousel-nav A.ari-cloud-carousel-left,
.ari-cloud-carousel-wrapper .ari-cloud-carousel-nav A.ari-cloud-carousel-right {
position: relative;
text-indent: -9999px;
height: 40px;
width: 40px;
display: block !important;
float: left;
margin: 0 10px;
}

.ari-cloud-carousel-wrapper .ari-cloud-carousel-nav A.ari-cloud-carousel-left {
background: transparent url(images/rotate-left.png) no-repeat 0 0;
}

.ari-cloud-carousel-wrapper .ari-cloud-carousel-nav A.ari-cloud-carousel-left:,
.ari-cloud-carousel-wrapper .ari-cloud-carousel-nav A.ari-cloud-carousel-right: {
background-position: 0 -39px;
}

.ari-cloud-carousel-wrapper .ari-cloud-carousel-nav A.ari-cloud-carousel-right {
background: transparent url(images/rotate-right.png) no-repeat 0 0;
}

.ari-cloud-carousel-header,
.ari-cloud-carousel-footer
{
text-align: center;
}
```

Thanks for your help !

Re:Title, description and navigation position

Hello,

In your case better use "bottom" instead of "top" CSS property to re-position navigation and title containers. About description, it looks centered. Do you want to decrease width of "description" container?

Regards,
ARI Soft

Thanks for your reactivity :)

For the description problem i have solve it. Perhaps my mainly problem is that :

The width of the carousel in module configuration is 1200 with these 25 images
To center my description and my title i have use the attribute center and a width of 1200. But if the client who will use this site add some images (he would like to put 60 pictures ...), he should to raise the width of the carousel in the confoguration and after that my title, description and navigations buttons will not longer be centered ... And i can't tell him "edit your style.css and replace these values".
May be if i use % values it could work better .

Thanks for youe time and for your help.

Use the next CSS rules:

```
DIV.ari-cloud-carousel-caption,  
DIV.ari-cloud-carousel-caption DIV.ari-cloud-carousel-title,  
DIV.ari-cloud-carousel-caption DIV.ari-cloud-carousel-alt  
{  
  width: 100%;  
}
```

Regards,
ARI Soft
