Need some explanations

Posted by dionysos - 2012/01/22 17:00
_____

Hello,

First, Thank you for this very nice module (free and very powerfull) B)

I need to do something exactly like this: http://www.emmi-aktifit.ch/fr/assortiment/, and i'm totally lost as regards to display the text description for each selected product. I've tried to use the INI file, but it's seem not work. I don't undestand how the text could be call on the same page as we choose a product on the carousel.

I have create an article on joomla (1.5) for each product description and i would to display it on the page, but it's not work too.

Is the description name image must match with the title of the image? Or it's possible to use another description?

Could someone help me and bring me some more explanations?

Thank you for all :)

Denis

Hello,

Sorry, but provided page doesn't contain "ARI Cloud Carousel" module.

Regards,
ARI Soft

Hi,

thanks for your answer. I see the website that i refer is not a joomla website. But i presume it's possible to do a similar thing.

Have any idea?

Whatever your answer, have a good day :)

Best regards,
Denis

_____

"ARI Cloud Carousel" module contains PHP code which provides ability to use INI files to define titles and description. It is not enough to use only Cloud Carousel jQuery plugin.

Yes, but i need to display more than just title and short description. Anyway, i will try to find a solution with an adding module like Article Anywhere.

Thanks. :)

Best regards,
Denis
