
Still dont have my swfs attached to the carousel.

Posted by newave - 2012/02/14 15:38

I have tried every which way to attach my swf to the image in the carousel. I think I may need an actual step by step instruction on how to get it done correctly. Can you please write out the exact format in the ini file so that I may attach my swfs correctly. My image is: onlinegameimagememoryblitz.png. My swf is: NU1_game_MemoryBlitz.swf

my games are located in a file with a path: <http://www.newaveuniverse.com/nwuacp/images/games/>

Thank you.

Hello,

Where we can see a carousel?

Regards,
ARI Soft

Use the next string in section in INI file:

onlinegameimagememoryblitz.png="http://www.adobe.com/products/flashplayer/include/marquee/design.swf?width=792&height=294"

Its already written like this in the ini file:

1.onlinegameimagememoryblitz.png="http://www.adobe.com/products/flashplayer/include/marquee/design.swf?width=792&height=294"
2.onlinegameimagememoryblitz.png="http://www.newaveuniverse.com/nwuacp/images/games/NU1_game_MemoryBlitz.swf?width=1024&height=768"

Isn't this already correct?

No, it is an incorrect. 1.onlinegameimagememoryblitz.png and 2.onlinegameimagememoryblitz.png images don not exist on your server.

I got the lightbox now! Phew..... One last thing. Its telling me the plugin is missing inside the lightbox. how do I fix that?

And thank you again for all of your help!

you are correct. I gave a bad link. it was:

http://www.newaveuniverse.com/nwuacp/images/games/NU1_game_Memoryblitz.swf

I checked it and the link is does work. Now I just have to fix the plugin issue.

Thanx!

A flash object is loaded fine into the lightbox for us. What browser do you use?

Thank you for all of your help. I will leave a raving review on the joomla extensions page. The money I spent on your components were well worth it.

Thanx again!
