
link to Flickr

Posted by dibessr - 2012/02/18 13:21

Can the path to the images be linked to a gallery in Flickr?

Hello,

"ARI Cloud Carousel" module can't show images from Flickr.

Regards,
ARI Soft

"ARI Sexy Lightbox" can show images from Flickr service, but it shows them in gallery view. It doesn't load Flickr images in cloud carousel.

"ARI Cloud Carousel" can be integrated with "System - ARI Sexy Lightbox" plugin. In this case large images or external links which are linked with carousel images will be shown into the lightbox.

Regards,
ARI Soft

i am new to this and i am sorry but i am not following your help. i went to the carousel module and aded ARI sexy lightbox to the integration window. what do i need to do next?

thanks for your help

If you want to integrate "ARI Cloud Carousel" with "ARI Sexy Lightbox", install "ARI Sexy Lightbox" module, install, configure and enable "System - ARI Sexy Lightbox" plugin and set "Integration lightbox" parameter to "ARI Sexy Lightbox" in "ARI Cloud Carousel" module settings, but as we wrote previously it doesn't add ability to show Flickr images in a carousel. Lightbox integration means that large images or external links which are linked with carousel

images will be shown into the lightbox.

i am not using the ARI Cloud carousel. I am only using the ARI Sexy Lightbox as a module in Joomla. When i try to configure the Joomla Flickr parameters within this module the API key and the secret code will not stay once i save the changes. they disappear upon saving the changes. the module does not display any images.

Check that "System - ARI Extensions" plugin is installed and enabled.
