## problem in article in firefox...

Posted by tday - 2012/02/24 16:30

---

I succesfully set up carousel to work in a module position in FF 10.0.2

After trying to view the same module in an article, the carousel is there, but the thumbnail images do not show up. It shows a blue spinning disk of dots.

Here is the link: (removed)

I tested in IE 8.0 and it does display there.

Please advise...

Thank you!

Hello,

Remove and HTML tags around cloud carousel.

Regards,  
ARI Soft
