customize link of thumbnails

Hello,

I'm using the Ari cloud carousel on Joomla 2.5 and I really like this module. It's easy to install and has many nice features. But nevertheless I couldn't find out how to customize the links of the thumbnails. I use the carousel for products and I would like to link the thumbnails to the site of every product and not to the bigger image. Is there any possibility to do this?

I will appreciate your help very much :-)

Hello,

Carousel images can be associated with links with help an INI file. A link to a sample INI file and instructions how to use it can be found in "Description" field on module settings page.

Hi, I studied & used the ini instructions & for the last 3 hours, still can't figure out why the images are not linking. I have attached the script below. Could you please let me know where I may have made an error?

Thanks

PS: When I click on the associated images, they take me to a separate screen where only the image of the product displays rather than the link.

INI file should be located in folder with images and have the next content:

scrollingshirt1.png="Shirt 1"
scrollingshirt2.png="Shirt 2"
scrollingshirt3.png="Shirt 3"
scrollingshirt4.png="Shirt 4"
scrollingshirt5.png="Shirt 5"

scrollingshirt1.png="Shirt 1"
scrollingshirt2.png="Shirt 2"
scrollingshirt3.png="Shirt 3"
scrollingshirt4.png="Shirt 4"
scrollingshirt5.png="Shirt 5"

scrollingshirt1.png="http://www.sweetfeetnation.com/index.php/clothing-store"
scrollingshirt2.png="http://www.sweetfeetnation.com/index.php/clothing-store"
scrollingshirt3.png="http://www.sweetfeetnation.com/index.php/clothing-store"
scrollingshirt4.png="http://www.sweetfeetnation.com/index.php/clothing-store"
scrollingshirt5.png="http://www.sweetfeetnation.com/index.php/clothing-store"
