
Move to navigation buttons

Posted by moraelin - 2012/04/17 18:38

I would like to move the navigation buttons so that the left button appears to the left of the carousel and the right button appears to the right of the carousel.

Solutions appreciated. ;)

Hello,

Provide a link to a page where we can see a carousel on your site.

Site is currently in development I'm afraid.

Default install of module, so standard instruction for this will suffice.

Thanks

Add the next code to "CSS Styles" parameter in module settings:

```
{ $id }_wrapper .ari-cloud-carousel-nav
{
  width: 100%;
}
```

```
{ $id }_wrapper .ari-cloud-carousel-nav .ari-cloud-carousel-right
{
  float: right;
}
```

Thanks for your solution. Please see my attached screenshot.

As you will see the buttons are still at the top at either side.

I would like to have them half way down the module at either side rather than at the top.

Can this be done with your module?

Add the next code to "CSS Styles" parameter:

```
{ $id }_wrapper .ari-cloud-carousel-nav
{
    top: 45%;
}
```

Thank you for the quick support.

But when I add the following code I get what you see in my attachment. I actually want the left arrow on the left side of the module and the right arrow on the right side of the module.

Have I made a mistake somewhere?

```
{ $id }_wrapper .ari-cloud-carousel-nav
{
    top: 45%;
}
{
    width: 100%;
}
{
    float: right;
}
```

Full code looks like:

```
{ $id }_wrapper .ari-cloud-carousel-nav
{
    width: 100%;
    top: 45%;
}
```

```
{ $id }_wrapper .ari-cloud-carousel-nav .ari-cloud-carousel-right
```

```
{  
float: right;  
}
```
