
css to add border

Posted by JPotter - 2012/05/02 12:22

Hi,

I would like to add a border around the carousel, specifically a feathered edge with mozkit and webkit. How would I go about this?

Many thanks

Hello,

Use the next CSS rule:

```
DIV.ari-cloud-carousel-wrapper
{
border: 1px solid red;
border-radius: 5px 5px 5px 5px;
}
```

Regards,
ARI Soft
