
My images are not displayong

Posted by mvicidomini - 2012/05/16 14:59

Hello, i don't know why but my images are not displaying.

I have never had any issue before it is the first time. Can somebody help me please ?

Thanks in advance

Hello,

Where we can see the problem?

This problem with menu script which is used by site template. Open browser's error console, it contains a javascript error.

The menu doesn't work when several jQuery instances are loaded. This problem with code which is used by a site template. You can contact site template developers so they fix this problem or disable loading of jQuery library in all extensions ("ARI Image Slider", "ARI Cloud Carousel" and others) and load it only once.

See "Include jQuery" parameter in module settings.
