Bring to front on hover

Posted by mauricejunior - 2012/06/05 19:47

_____

Hi all, I just love this module it is the best!

There is just one teeny problem that I hope someone could assist me with.

Instead of clicking to bring a slide forward, I want to hover on a slide to bring it forward.

I suspect that this should not be too hard to achieve, but I am not a coder :ohmy:

Can any one of you good persons tell me how to do this?

Thanks a million!
