_____

Hello all I don't know if i have made something wrong but my ini file does not work

coiffeurfr.jpg=""

coiffeurfr.jpg=""

coiffeurfr.jpg="http://jvb-inlucca.com/index.php/fr/menu-coiffeur"

It does not activate my link.

Best regards

The ini file is on the image folder

Hello,

Provide a link to a page where we can see the problem.

Regards,
ARI Soft

_____

Hello..i have a question to the module ARI Cloud carousel...
Have the .ini-File upgedatet, but it doesn't show mi the discription and the links doesn't work:-(..
It's open the lightbox..but i have choose None Lightbox Integration

In the attachment you can find the .ini-File and a picture of my settings..

Thanks for your support..

With best regards http://www.ari-soft.com/images/fbfiles/files/aricarousel.zip

...It works...i hadn't read, that the ini.-File in module is an example and that the ini-File has to be copied to the folder with the images...
