
images rounds very fast

Posted by joserrav - 2012/06/25 19:20

Hi, when I just open the website where ari cloud carousel is working in the home page, I can see the images go round very fast, then in seconds it gets the right speed.

You can see this problem here www.periodicofree.es

Any help for get the right speed?

Thank you in advance for the help!

Hello,

The page doesn't contain "ARI Cloud Carousel" module. Check it please.

Regards,

ARI Soft

To see this wrong effect you need open the home page in www.periodicofree.es , then open other new tab in your browser, and then return to our home page, then all images are round very fast, diring several seconds until get the right speed. ??? Very curious...

Upgrade the module to the latest version, set "Stop carousel in background" parameter to "Yes" and clean browser's cache.
