_____

I want to design own Navigationbuttons for the carousel and replace them. Where can I change the pics and what changes I have to do in which scripts?

Thanks for help.

Sincerely

Robert

Ok, I found the solution. It is here, for all, who needs the information also in case of using joomla:

htdocs/Yourwebsite/modules/mod_aricloudcarousel/mod_aricloudcarousel/js/themes/default/images/
