
Carousel integrated with Phoca Gallery

Hi,

Excellent module, thanks. Please can you help - I'm trying to show sample carousels of related pictures on the footers of the pages shown when selected from the corresponding folder images displayed by the Phoca Gallery Category List layout tied to "my photographs" menu item on the front page. Hope this makes sense - I think it would make a great combination. I'm using Joomla! 1.5.26, PHP 5.3.5. Regards, Ray

Hello,

The module doesn't support integration with PhocaGallery.
