
Personnal carousel image and Links

Posted by Tistou - 2012/07/26 07:40

Hello,
I'm looking for a carousel for my site that is in joomla 2.5. I need that every user having his personnal carousel, because any user don't have to see the same images with links than others. By example, a user have to see image1 with link1, image2 with link2, image5 with link5 and another user have to see image2 with link2, image3 with link3, image5 with link5, etc...
Is it possible with ARI Cloud Carousel ?
I hope you'll get what i mean, because i'm not excellent in english :unsure: ;)
Thank you very much :)

Hello,

The module doesn't support ability to use specific links for specific users.
